Parents and Carers,

Congratulations to everyone for making the first 4 weeks of semester 2 a productive but busy time. Today with great excitement we opened our second preschool with Group 1 attending for the first time this morning. Mrs Rowley and Mrs Pereria were both keen to get started as I am sure the students were as well. Students settled in quite well and seemed to really enjoy the start to their schooling life here at Rosebery Primary School.

Last Monday we had our Visible Learning capability assessment undertaken with assessors from interstate and we are eagerly awaiting our report. We believe we have moved so far with students being able to now articulate what they are learning, how they know they will be successful and what their next steps will be. We are holding student led conferences again early term 4 where your children will be able to share their learning with you. If you require time to meet with their teacher please call and arrange a time sometime this term with them as the purpose of the student led conference is for your child to talk about their learning not the teacher. Visible Learning permeates all learning at Rosebery Primary School ask your child’s teacher about it if you want to know more.

At Rosebery Primary School we value parent input and encourage you to complete the Parent Perception Survey. I would encourage everyone to take the opportunity to assist us in making Rosebery Primary School a better place for your children to learn. Please complete the survey before the 28th August. You can access the survey at the following link https://www.schoolsurvey.edu.au/s/nK2P9UpK

All NT Government Schools are required to undertake a number of school perception surveys. These have been developed by the Department and created by each school. Please take your time to complete this survey and contribute to the development of our school.

Our school photos were completed on Friday and the preschool groups will be having their photos taken in Term 4. This allows us to include our new groups. This will give them a little bit of time to settle in and be ready for photos by then. Please remember school photos are a special way to remember childhood memories and we appreciate those families who take the time to purchase them.

We have a Green Light Disco this Wednesday evening from 6pm to 8pm. and I hope to see many families attending. School staff will be there to run the night but students in Early Years really need an older sibling or parent to attend as the staff can only supervise children who are involved with the dancing. I would also encourage you to leave at home your Middle Years aged children as this is a primary Green Light Disco. I look forward to seeing lots of children enjoying themselves and getting involved.

Finally we have had the Palmerston City Council come and look at the issues we have been raising with them about Forrest Parade and the lack of safe crossings for students. They are looking at doing some counters for traffic on the road and have spoken to the building site that had the footpath blocked off near the roundabout. This is ongoing between our School Council and the PCC and I do thank parents for their calls of concern, it is certainly of concern to us as well and we are trying to deal with it as we are able. The Middle School is also on board with these issues.

Science Fair
Last term in science we followed a procedure to mix the right ingredients together to create our very own lava lamps. Look at how they turned out!
